Summary

A set of basic rings that I created out of boredom.

[Fashion](#) > [Other Fashion Accessories](#)

Tags: [rings](#)

I was curious about a 3D printed ring, so I printed a couple, but wasn't super happy with the designs I found.

Everything is rounded out to make them comfortable. The inner diameter of each ring is 20mm and outer diameter is 25mm.

I printed it with support in PLA. I imagine they would be fine without support though.
