Tags: [case](#) [cigar](#) [half](#) [protective](#) [rest](#) [stand](#) [tube](#)

Printed in PLA, PETG should work as well

Use 0.2 - 0.1 mm layer height

Do not print standing

Infill 10% or more. When opened, stack the case on other to use it as cigar stand to let cigar rest.

When importing to PrusaSlicer make sure to separate the 2 bodies. and place them on bed
