Tags: [sovol](#) [sovolsv06](#) [sv06](#) [extruderindicator](#) [extrudervisualiser](#) [indicator](#) [visualizer](#) [extrudervisualizer](#) [motorknob](#) [plus](#) [sv06plus](#)

Keep an eye on your Sovol SV06 extruder movements with this extruder visualizer/motor knob that adds a touch of style and personalization to your printer. With the extruder movements on the SV06 and SV06 Plus often difficult to see, this visualizer is the perfect solution for those who want to keep a close watch on their printer. Not only does it serve a functional purpose, but it also adds a unique touch to your printer setup.

I tested the fit on my SV06 but for those who want to be absolutely certain, they can print the test part (sv06\_motor\_knobs\_test\_fit.stl) and adjust the scaling to find the perfect fit for their chosen part.
